

EDUCATIONAL

STENOGRAPHERS
TYPISTS
BOOKKEEPERS

Men and Women

The Civil Service Commission writes us, under recent date, in part, as follows:

"The situation as to Stenographers, Typists and Bookkeepers in Washington is urgent. Some branches of the service are calling upon the commission for communications of large numbers of eligibles; for example, the Bureau of War Risk Insurance has asked for a thousand stenographers and typists for immediate use. Positions vacant throughout the service are not temporary ones; appointees will have the same status as other Civil Service employees.

"The commission requests that you assist it by bringing these needs of the government to the attention of qualified persons."
